AI SUMMIT 2026

Sovereign AI Infrastructure & OpenClaw Ecosystem

Building Secure, Private & High-Performance AI for the Future

OpenClaw
Private AI Platform

Mac Mini
Compact Power

Jetson Nano Super
Edge AI Performance

GPU
High Performance

Your AI • Your Cloud • Your Control

AI SUMMIT 2026

04 | InfraCloud Ultra

MEDIUM TO LARGE BUSINESS
AI INFRASTRUCTURE

Maximum Power.
Unlimited Scale.

KEY FEATURES

AI Training & Fine-Tuning
Train and fine-tune models with your data.

Hosted AI Workloads
Secure AI across multiple locations.

Multi-GPU Computing
Leverage GPU power for training & inference.

Mission-Critical Platform
Accelerate research with powerful AI tools.

High Availability Architecture
Built for mission-critical workloads.

H100 & H200 GPU Servers
Next-gen NVIDIA H100 & H200 GPUs for extreme performance.

Sovereign AI Infrastructure
100% data ownership and sovereignty.

hosted-ai Platform
AI Infrastructure Management

TECHNOLOGY STACK

Data Center Infrastructure
Secure, scalable, and high-performance data centers.

NVIDIA H100 & H200 GPUs
Ultimate performance for AI training & inference.

NVIDIA RTX 5090
Ultimate AI & Graphics Power

hosted-ai Platform
AI Infrastructure Management

Splunk Observability
Real-time monitoring, logs, security & performance insights.

PERFECT FOR

Government Institutions

Large Enterprises

Research Centers

Medical Institutions

Learn More

100% Data Sovereignty
Your data. Your AI. Complete control.

Unmatched Performance
H100 & H200 GPUs for maximum AI power.

Enterprise Security
End-to-end encryption & zero-trust security.

Global Scale
Deploy AI infrastructure where you need it.

Your AI • Your Cloud • Your Control
